

Mentorship Program

Mentoring is a collaborative partnership in which a senior administrator provides guidance, advice, and encouragement to one with less experience. The Mentee is accountable for drawing out what he/she needs and wants, while the Mentor is accountable for giving knowledge and support when requested. We are hoping this endeavor proves to be more than just answering occasional questions, but an ongoing relationship of learning, dialog, and professional development.

PMA is looking to compile a list of senior administrators who are willing to become mentors. In a sector where there is a large turnover of staff, new clerks are often faced with challenges and wonder where to turn. We want to be able to provide them with a contact of someone they may ask specific questions to, or even visit your town office and see how you operate on a daily basis.

Be willing to share in your experiences and knowledge...become a Mentor. We are certain you too will find the experience both enriching and gratifying.

To become part of this initiative, please respond to this email, or contact the PMA office at 726-6405.
